The Walt Disney Company's new video-on-demand service, Disney Plus, debuted in the United States and other regions late in 2019 and is now accessible in a variety of additional markets. While you can watch Disney movies and original series on your Android smartphone, watching them on your big screen TV is more fun. Apple TV is the best streaming device available, you're in luck if you have an Apple TV on hand. With over 100 million subscribers globally, Disney Plus has quickly become one of the top streaming services. So, if Disney Plus is available on Apple TV, makes sense why! The very first thing you should do is subscribe to Disney Plus. You can do this through the Disney Plus app for Android, but we recommend going to the Disney Plus official website instead. It costs \$7.99 per month or \$79.99 per year to subscribe to the service. (If you're lucky, you might be able to get a free trial for seven days). Without further ado, here's How to install and watch Disney Plus on Apple TV in a jiffy. How to Watch Disney Plus on Apple TV in 2022 The procedure for getting Disney Plus is, as one could expect, incredibly basic and straightforward. Before you begin, make sure you have a Disney account set up so you can begin streaming right away. By following the below steps here's how you can subscribe to Disney Plus on Apple TV; Using your iPhone, iPad, or PC, go to the Disney+ sign up page (and web browser) Choose between a Buy Now option or a Start Free Trial. Fill in your email address and make a strong password. You will receive a free seven-day trial. If you don't want to subscribe, you must cancel the trial before it expires because you'll be charged \$6.99 and will be charged every month until you cancel. A confirmation message will be sent to your email address after you've finished. Go to your email inbox and look for the Disney Plus confirmation email. To confirm, click the link enclosed in the email. After that, you'll need to head over to Apple TV and download the app. Here's how you can. How to Watch Disney Plus on Apple TV Go to the App Store on your Apple TV's home screen, which is only available on Apple TVs that are fourth-generation or later. Type "Disney Plus" into the search box provided, and when the app is located, click "Get" to begin the download. Return to your Apple TV's home screen and navigate to the Disney Plus app icon, which you may access by clicking. To log in on your Apple TV, use the same user name and password you used to sign up for your Disney Plus account on the internet. Find the show or movie you want to watch and start watching it. What if your Apple TV has an older version? You won't be able to download the Disney+ app if your Apple TV is older than the A1625. The most straightforward explanation is that these older devices do not have access to the App Store. If you possess one of these older Apple TVs, you can use AirPlay to connect your devices. Here's how you can do it How to watch Disney Plus on Apple TV with AirPlay from an iPhone, iPad, or Mac Here's how to use AirPlay to watch Disney+ to an Apple TV from an iPhone, iPad, or Mac; Make sure your iPhone/iPad is on the same network as your ATV. Open Settings on your Apple TV. Now select on Wi-Fi Make note of the network Check against the Apple TV Open the Disney+ app. Now search for something to watch. Start playing the aforementioned thing. The AirPlay icon should be tapped (or clicked). Select the Apple TV on which you want to watch the video. Sit back and relax to watch Disney plus on Apple TV. How to Watch Disney Plus on Apple TV in Geo-restricted Countries As we all know Disney Plus is a geo-restricted streaming service that isn't available in various countries including Philippines, Romania, Hongkong, New Zealand, Singapore, Germany, and Thailand. There's nothing to worry about if you want to watch your favorite Disney Plus content because I've got your back! Here's how you can do it! The subscription and downloading process are exactly the same whether you want to watch it from the geo-restricted country or not. All you need to do is subscribe to a credible VPN. If you want to watch Disney Plus on Apple TV in a geo-restricted region, all you have to do is follow the below-mentioned steps before subscribing and downloading Disney Plus on Apple TV Download and subscribe to a credible VPN (I highly recommend ExpressVPN because it is the best Disney Plus VPN). Open the VPN software and sign up/sign in with your account credentials. Select the USA server from the drop-down menu to mask your location. Why do you need a VPN to watch Disney+ on your Apple TV in a geo-restricted region? Your local IP address is assigned to the internet you are accessing. In order to stick to the set of content distribution restrictions, Disney+ employs IP tracking technology, which prevents users from accessing the service from locations where it is not available. That's why if you try to watch Disney Plus from outside of the supported countries, it will immediately ban your access based on your local IP address. It masks your current IP address and replaces it with one from a country where the Disney+ service is available, such as the United States. This will fool the IP tracking system into thinking you're in the United States, allowing you to watch Disney+ on your Apple TV from an unsupported country. However, not all VPNs are compatible with Disney Plus on Apple TV. This is why I have compiled a list of the best Disney Plus VPNs to watch in geo-restricted regions on Apple TV.
